From Digital Photogrammetry to 3D Digitalization for Art Objects Measurement

O. Feihl, E. Renaudin 135

The Osiris Project (Optical Systems for Interferometric-Photogrammetric Relief Investigation and Scanning). Development of a Device for 3D Numerical Recording of Archaeological and Epigraphic Documents by Optoelectronic Processes

D. Laboury, Y. Renotte, B. Tilkens, M. Dominique, R. Billen, Y. Cornet 139

Survey of Available 3D Visualization Techniques

W. Schuhr, E. Kanngieser 143

Accurate Texture-Mapped 3D Models for Documentation, Surveying and Presentation Purposes

M. Sgrenzaroli, E. Wolfart 148
