Specialists in WORD AND DEED

THE WORD 'SPECIALIST' is now commonplace in the Vocabulary of any highly organised Society. It infers a comprehensive knowledge of a particular subject, & the ability to decide what Special Equipment and Techniques should be applied for the most practical and efficient solution to a problem. A solution in fact which incorporates the highest regard for the interests of those seeking the specialists' services.

★ ★ ★

BY DEED - We have safeguarded the interests of our clients by ensuring that the finest equipment available to the Photogrammetrist is allied to modern techniques. Our laboratory probably the most up to date in Europe, is completely equipped by Wild of Heerbrugg. Our highly trained staff are specialists in the production of large scale engineering plans, mostly at scales of 1/500, 1/480, 1/240 and 1/96, and in our new purpose-built laboratories, they work in conditions we regard as essential for the maintenance of the strict standards of accuracy required.

Indeed SPECIALISTS in Word and Deed.
