

Introduction

On behalf of the International Society for Photogrammetry and Remote Sensing (ISPRS) and the Gesellschaft für Photogrammetrie und Fernerkundung der DDR (GPF), we present you the Proceedings of the Symposium

PROGRESS IN DATA PROCESSING AND ANALYSIS.

In this Volume 28, Part 2 of the International Archives of Photogrammetry and Remote Sensing the readers will find the papers of the Symposium which was held in Dresden at the Haus der Kultur und Bildung from September 8th to 12th 1990.

The Dresden Symposium was successful from the following points

Participants	80
represented Countries	16
presented Papers	60
Plenary Sessions	10

Reports were given on remarkable scientific results in the areas

- Digital Photogrammetric Systems
- Intelligent SAR Processor Systems
- Integrated Digital Systems
- Cost Reduction for the Analysis of
- Remotely Sensed Data by Using
- low Cost Computers

Finally the Organizers thank all those who contributed to the success of the Symposium Dresden 1990.

Dresden, October 1990

Klaus Szangolies
President
ISPRS Commission II

Jürgen Pietschner
Secretary
ISPRS Commission II

PROGRESS IN DATA PROCESSING AND ANALYSIS

In this Volume 28, Part 2 of the International Archives of Photogrammetry and Remote Sensing the readers will find the papers of the Symposium which was held in Dresden at the Haus der Kultur und Bildung from September 8th to 12th 1990.

The Dresden Symposium was successful from the following points

Participants	80
represented Countries	18
presented Papers	60
Plenary Sessions	10

Reports were given on remarkable scientific results in the areas

Digital Photogrammetric Systems
Intelligent SAR Processor Systems
Integrated Digital Systems
Cost Reduction for the Analysis of
Remotely Sensed Data by Using
Low Cost Computers

Finally the Organizers thank all those who contributed to the success of the Symposium Dresden 1990.
